### Quality Bread

There is a peculiar something about Barber's Bread that makes it stand out prominently in many homes in this town—it has a tastiness that causes the children and grown-ups to marvel at its goodness. The answer is Quality, and that is because the best wheats and other ingredients of the highest nutrition, combined with modern methods of baking go into every loaf. We serve quite a number of the citizens daily, and we can serve you too. Buy a loaf of our bread today and you will appreciate this. Our cakes and pastries are equally good, and prices are reasonable.

### CLARESHOLM LOCAL NEWS

Leo Elgin was a visitor in town on Thursday.

J. L. McCrimmon, tailor, is moving into the premises next to Geo. Ringrose.

Leonce Clark has purchased 320 acres three miles south of town from Mr. Pierce.

Died at Calgary hospital on Wednesday morning, Mrs. Harry Brown, of Clareholm.

On next Sunday evening Mr. Locke will preach a sermon to fathers and mothers, in the Methodist church.

Mr. and Mrs. J. R. Watt expect next week they will probably be gone about two months.

Mr. and Mrs. O. C. Berger of Everett, Washington, arrived in Clareholm on Tuesday morning to visit with their daughter Mrs. Roy H. C. Padfield.

A social evening under the auspices of the W. G. T. U. will be held in Harrison Hall, May 14th. A competition for every one. Admission free.

Rev. Mr. Butcher left on Thursday night for California. A wire from home stated that Mrs. Butcher was in a very precarious condition and that he was needed at home.

Owing to ill health H. J. Duffy has been compelled to quit the farm. He moved into town on Thursday and is living in the house recently occupied by Al. McAllister.

Seeding operations are in full swing. The warm climate has dried off the roads and fields to such an extent that everyone is feeling optimistic over the crop prospects.

The W. M. S. of the Methodist church had a large attendance at the parsonage on Thursday last. Mrs. J. M. Harrison was present and met many old friends. An interesting program and an appetizing lunch made a very enjoyable afternoon.

Three of our town councillors, Messrs. Watt, McAllister and Kiger have handed in their resignations. This will necessitate a bye-election to fill the vacancies. Mr. Watt is leaving soon for an extended visit in the old country. Mr. Elgin has moved onto his farm near Macleod, and Mr. McAllister has disposed of his interest in the garage and will go a-farming.

Ever read any of Peter H. Kane's stories? Then you can just about imagine how thrilling his story, "The Three Goldfishers," is when we tell you that three marked men are forced to adopt a tiny baby, just born in the terrible heat of the desert and with terrific odds against them, bring the child to safety. Do they do it? Wait and see in this great play how Fate can rearrange their lives in "Marked Men." At Rex Theater next Friday and Saturday.

The meeting in connection with the Brotherhood movement which was held in the Presbyterian church on Tuesday last was not very well attended, but those who did venture out had the pleasure of listening to one of the finest addresses ever heard in Clareholm. Mr. Williamson charmed everyone present with his oratory. His word picture of the great Brotherhood convention in London and his description of the condition existing in Serbia during the war and at the present time were simply thrilling. Steps were taken toward organization in Clareholm and a committee was appointed. This committee consists of T. D. Lewis, W. Knight, Mr. McCoukey, R. S. Law, R. K. Peck.

Can you solve the mystery of the crimson gardenia? Do you know who murdered Emil Le Due? Who were the masked and hooded men who haunted and haunted Roland Van Dam? Who was the girl in the case? Was she in league with the counterfeiters, or was this beautiful French girl secretly plotting to avenge a great wrong? Why did the famous detective "quit" the gardenia case? Were they afraid of the invisible foe? You will never know until you see Rex Beach's thrilling mys-

tery melodrama, "The Crimson Gardenia." A story of four crooks and the mask of fate. A Goldwyn release, and the season's prize melodramatic triumph. Coming to Rex Theater next Monday and Tuesday.

## For Canadians to Consider

The national debt of Canada has now reached a figure of approximately \$3,000,000,000. This is the gross debt. The net debt, that is after deduction of assets has been made, is now around \$2,000,000,000. It must be borne in mind, however, that many items included in the statement of assets are not such in the commercial meaning of the term; in fact, no inconsiderable portion of what are termed assets are, for the time being at least, more in the nature of liabilities. For example, Canada has some hundreds of millions of dollars invested in the National Railways, and the latter are regarded as an asset, but as a matter of fact and common knowledge these railways are not earning operating expenses, not to mention interest on the capital invested in them. Consequently, in casing the national balance sheet, the people must be taxed to meet both operating deficits and the whole interest outlay on the money invested in, and the stocks, bonds, and debentures outstanding against these railways.

For the current year it is estimated that no less a sum than \$350,000,000 will be required to meet ordinary expenditures, and a further substantial addition must be made to meet the deficit to cover certain capital expenditures to which the country is already committed and which cannot be avoided.

Of this \$350,000,000, about \$125,000,000 will be eaten up as interest on the public debt. In the neighborhood of \$50,000,000 will be required to cover operating deficits and interest payments on account of the national railways. Thus these three items alone will dispose of one-half of the entire revenue.

Out of the remaining \$175,000,000 some tens of millions must be paid out in pensions, vocational training for soldiers, hospital accommodation and treatment for soldiers, and various forms of soldiers' civil re-establishment work. Some millions are to be spent in grants on a population basis to the provinces for highway construction; a few millions will be used to meet the deficit in the operation of the post office department and all the expenses of government, including the Civil Service, administration of justice, militia and police establishment, subsidies to the provinces, and all the multiplicity of services developing upon the Federal Government must be met.

The people of Canada, who are the taxpayers, and who must bear the burden of providing the money to meet all these obligations, must therefore consider the national situation, and especially so at times when they may be inclined to urge additional expenditures of one kind or another for very laudable and even necessary purposes. Canada must, however, curtail its expenditures to a point where they can be covered by the revenue. This country cannot continue living on borrowed money and by going still deeper into debt. There must be national as well as individual retrenchment. Instead of getting deeper into debt the time approaches when we must agree to still heavier taxation in order to begin the process of liquidating the national debt, at it is now being done in Great Britain.

There is nothing in the national situation, however, to despair over or

## National Research Institute

Institution Would Meet The Requirements for Developing the Natural Resources

Plans for the establishment of a national research institute for Canada, were before the commonsense committee on scientific research recently. It was recommended that a site of at least 5 acres should be secured near Ottawa and a building of laboratory type for stories in height, to cost \$300,000, to be erected.

The scientific instruments required would cost approximately \$100,000 and salaries would require about \$100,000 per annum.

This institute would be similar to the bureau of standards at Washington and the Mellon institute at Pittsburgh. It was felt that such an institution would meet the most pressing requirements for developing natural resources and make provision for assistance to Canadian industries.

A bill covering the establishment of such an institution is to be drafted by a subcommittee composed of Dr. B. Steele, Dr. Thompson (Yukon), and Dr. R. J. Manion (Fort William), who will report back to the committee.

## Lift off Corns!

Doesn't hurt a bit and Frezcon costs only a few cents.

With your finger! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from any drug store; apply a few drops upon the corn or callus. Instantly it drops flaking, then always you lift that bothersome corn or callus right off, root and all, without pain, no pain or soreness. Frezcon! No humbug!

## Demand for Men Better

34,440 Workers Were Placed During Month of March

The employment situation in Canada is improving, according to figures published in the Labor Gazette for April. The employment service connected with the department of labor placed altogether 34,440 people in employment during the month of March and received 41,700 applications for employment. The department was notified of 38,200 vacancies. All these figures represent an increase over the previous month and the previous year. There was a steady increase in employment in all provinces except the territories, where a decline was reported.

There was less loss of time due to strikes in March, 22,000 workers were lost, a low of 10,000 were lost, and representing a loss of 43,619 working days. Sixteen strikers resumed work at the end of the month. Reports were received from five conciliation boards and applications were received for five more. Two boards were appointed in addition previously.

Minard's Liniment for sale every where.

## A Satisfied Farmer

This Country Cannot Be Beaten For Mixed Farming

I have lived in the Kitscoty district for fourteen years, and have a half section under cultivation, and have farmed ever since coming to the country, and have grown wheat, oats, barley and flax. Wheat has yielded from 26 to 51 bushels per acre, oats from 30 to 110 bushels, barley 35 to 45 and flax 15 to 20 bushels per acre. I had a failure the season of 1918 owing to hail, the only hail I have had since coming to the country. I might say that my wheat has always graded more or lower than Number Three in the thirteen crops I have harvested. I am well satisfied with the fertility for grain growing, and I have had at times over an hundred head of cattle. I don't think the country can be beaten for mixed farming. We have first-class soil, good water, and a good climate, all we need is more and better farmers.

(Sd.) Joseph Gilmore, Kitscoty, Alberta.

It is just fifty years since the method of grinding wood as raw material for paper was introduced in the United States.

## For Good Films

Manitoba Takes Lead in Encouraging British and Canadian Sentiment

The Good Films Committee desire to go on record as being heartily in accord with all movements tending to raise the standard of Motion Picture entertainment in Manitoba, with a view to encouraging British and Canadian sentiment and clean ideals of family life.

The committee urge a closer co-operation between the board of censors and the citizen in order that the public in pictures dealing with scenes of the wide-spread influence of this universal form of recreation, which is undoubtedly doing much to mould the sentiment of the rising generation.

It is strongly advocated that constantly recurring ideas and suggestions in pictures dealing with scenes of infidelity; shady methods of divorce; vicious underworld characters and methods of life; sex immorality; and the depiction of assault upon women be suppressed.

The lead taken by Manitoba in this connection might well be followed by the other prairie provinces. The educational value of the moving picture is second only to our newspapers, and is therefore of paramount importance. That pictures depicting only the highest and best ideals should be shown, is a matter of common sense, and in helping to raise the standard of motion picture productions.

Minard's Liniment Cures Dandruff.

## Make A Home on the Farm

A Farm Must Be Self-sustaining Before A Farmer Can Become A Contented Home-maker

One cause of the present unrest among the farming population of the west is the lack of home ties. What I mean by that, I mean, that the average settler in the semi-arid region regards himself as a temporary occupant of the land rather than as a permanent fixture—a permanent citizen of the country. As a result of this feeling he has not developed the home-spirit. He intends to get a big crop sometime and sell out to someone from the east. No country can be prosperous until the farmers have a settled determination not only to live in the country but to die there. A community without graveyard is an uncertain quantity.

The farm home must be self-sustaining. The farmer who sells his hogs and buys lamb and bacon, who sells his cream and buys butter, and the farmer who raises cattle and lives on condensed milk, will never become a contented home-maker.

A one-crop system will never develop a contented community. The farmer must first of all be a "master"—he must be rooted to his farm in so far as he regards it as a home for himself and his family.

A wheat farm will never become a home, neither will a cattle-ranch nor a sheep ranch. A farm home has to be sustained by a few cows, hens, hogs, sheep and sufficient of other stock, including goats, to consume the forage that is raised on the place.

And without contentment there is no permanence. The last three years have demonstrated the folly of trying to develop a country with one crop. The farmers of the so-called dry farming states are miserably situated. In plant corn, Sudan grass, millet, rye, barley and other crops that can be fed on the place. Then get by any means possible the stock to feed it up and there will be no returning to the homes in the east and middle west.

A farm home without chickens and calves, and pigs and lambs, and colts is like a home without children. It is a misfortune for any child to be born and raised on a farm that is not stocked with animal pets.

The farm home must be self-sustaining. We must get back to some of the customs of our fathers when nearly everything that was needed by the family was produced at home. When the family made its own sugar, raised its own honey, killed its own meat and made its butter and soap, when the cellar was filled with everything that was good to eat, and the garret with dried fruit. We as farmers may be inclined to go back to the days of spinning and weaving to clothe the family, for at the present rate of increase of cost there will be no other way. We must abandon the idea that the farm is a factory and make of it a home where we can live and escape to some degree the pressures we must make a home of the farm. Scientific Farmer.

Canada Secures Orders in Roumania The Canadian Association of Woolen Manufacturers has secured orders from Roumania to the value of \$2,000,000. The association sent an agent to Roumania to handle lines of Canadian woolsens in south-eastern Europe.

## Insures long life

Imperial Mica Axle Grease and Imperial Buna Harrow Oil Insure long life for wagons and harness. Put up in convenient sizes and sold by dealers everywhere.

**Imperial Mica Axle Grease**—not only lubricates, but smooths the surface of the axle and hub with a coating of powdered mica, thus reducing friction and lessening the strain on horses and harness.

**Imperial Buna Harrow Oil** keeps harness straps and tug pliable and strong, prevents cracking and breaking of stitches, preserves harness against the action of sweat, moisture and dirt, also wards off insects. Imperial Buna Harrow Oil imparts a rich, black, lasting finish.

## Smoke Screens

Secret Used With Great Success By The British Navy

The secret of the smoke screens used with great success by the British Navy in the raids on Ostend and Zeebrugge is definitely disclosed. They were produced from an acid, which has to be burned in the presence of a sufficient amount of water vapor, otherwise the smoke produced even over the sea, is liable to be somewhat thin or dry.

Commander Brock, who sacrificed his life in the assault on the German defenses at the Belgian ports, devised the plan to feed the acid in a fine spray into the funnel of a destroyer, where the temperature was sufficient to vaporize the acid, and the water vapor present completed the formation of a cloud.

Wise men always do a little hustling on their own account while waiting for good luck to come and help them a visit.

## ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" on Aspirin is of "Bayer Tablets of Aspirin" which like 14 Karat on gold. It positively contains proper directions for children, identifies the only genuine Aspirin—Headache, Toothache, Rheumatism, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally. The boxes of 12 tablets cost but little.

Always buy an unbroken package for a few cents. Larger "Bayer" packages. There is only one Aspirin—Bayer—You must say "Bayer" to the manufacturer of Bayer Manufacture of Monocarbonyl of Aspirin.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocarbonyl of Aspirin.

For information, to name the public health authorities, the Tablets of Bayer Company will be supplied with their special trade mark, the "Bayer Cross".

## WORLD ASCENDANCY

## Brandram's Genuine BB WHITE LEAD

THEY used it for the stage-coach of olden days in England—we use it in Canada today. Compare it with any other white lead or white paint, and you will decide that your house—or anything you wish to have truly white and remain white—must be painted with this brand which has survived as the leading white lead for nearly two centuries.

Thinned with linseed oil and turpentine, it makes a perfect white paint. Combined with coloring matter, it makes the satisfactory tinted paint of any shade. It is the basis for that finest of ready-mixed paint, B-H "English" Paint.

Made in a modern Canadian factory, and by the same process as was employed for its manufacture by its inventor in England, it is today the only survivor of all the patented white lead processes of that earlier generation. It has survived because it results in a white lead of exceptional fineness, whiteness and durability.

## Clareholm Local News

Competitions for young and old in Harrison Hall, May 13th.

K. P. Murchison made a business trip to Calgary on Thursday.

Doug Miller arrived from the north country on Thursday night.

The sacrament of the Lord's Supper will be administered next Sunday morning in the Methodist church.

Sylvan Hillier returned from the University at Edmonton last Friday. He will spend the summer on the farm near town.

The fine weather has put the baseball grounds into good shape. A big turn out to the practices is expected next week.

Bert Knudson left Tuesday to play ball for the summer. He reports several good offers met expected to accept the one made by Brooks.

Mrs. Clara B. Fatland represented the local W. C. T. U. at the Provincial convention of that organization in Calgary Thursday and Friday of this week.

The Rex Theater has secured another Chaplin treat for the local patrons by booking for Wednesday and Thursday, May 12 and 13, Charlie Chaplin in "A Day's Pleasure."

Business as usual at the Nazarene Mission Sunday next. Mrs. Mahel Tenove will address the afternoon meeting at 3 p.m. Pastor Richard Tenove of Solidford will have charge of the evening service and will preach on the subject, "A Question Without an Answer."

Reports are current that the 44 Ranch has been sold to a number of Danish settlers from Indiana. This deal means about 3500 acres changing hands. We understand that the ranch will be divided up into small ranches and that a large number of families will settle there. If this is correct it should materially benefit Clareholm from a business standpoint.

The masked and hooded figure was surrounded by a band of notorious counterfeiters. The odds were against him. A beautiful girl looked on in terror, pleading for his life. The gardena started crimson with blood, dropped from her breast. Slowly, surely the telephone receiver tilted, then! See Rex Beach's thrilling mystery melodrama "The Crimson Gardenia" at the Rex Theater next Monday and Tuesday.

Harry Carey numbers his followers by millions. Few of them can imagine him in the role of Godfather, as one of three he proves himself not only the hero of the play, but an actor of most unusual ability. See him in this unusual picture made from one of the most famous stories that ever appeared in the Saturday Saturday Evening Post—"The Three Godfathers"—written by that master of romance and pathos, Peter B. Kyne. It's a picture you'll remember always. At Rex Theater next Friday and Saturday.

For Sale—Three good milch cows, just fresh.—Dickinson Bros. Woodhouse. Phone R1306.

# Supreme Council To Deal With The German Problem

Paris.—The San Remo correspondent of Matin says he has been informed that the propositions of Premiers Nitti and Lloyd George on the question of dealing with Germany culminated in a suggestion that Germany be invited to take part in the conference here. The premiers indicated, he declared, that in their view the presence of the German chancellor in person would be desirable as a means of making the discussion of the future and economic relations between Germany and her former enemies productive of the best results.

However, adds the correspondent, the representations of Premier Millerand ultimately convinced the Italian and British premiers that they had taken the wrong view, and it was decided that discussion of the German problem should be confined to the members of the supreme council.

The German note requesting a revision of the military clauses of the peace treaty, so that Germany could maintain an army of 200,000 men, has been a general reduction of armaments had been brought about by the League of Nations has been received by the president of the San Remo conference, the correspondent reports. In British circles, it is believed, he stated, that the discussion of this note will necessitate a prolongation of the length of the conference.

## Miners Riot at Butte

Fourteen I.W.W.'s and One Policeman Are Wounded

Butte, Mont.—Fourteen men, believed to be Industrial Workers of the World strike pickets, and one policeman, are in local hospitals suffering from gunshot wounds sustained in a battle on Anaconda road, near the Nevadawine mine. Police officers believe two of the alleged Industrial Workers will not recover.

Police are searching for three other men said to have been wounded seriously. Striking miners are believed to have fled and the street in front of the building. Feeling runs high. Police reserves have been called out.

## Exhibition Munitions

Are Guaranteed

Question of Compensation for Min Killed At Parry Sound Is Under Consideration

Ottawa.—The Government has a guarantee that all active munitions returned from overseas are properly examined and guaranteed to be harmless before being used for exhibition purposes. This information was given to James Arthur, of Parry Sound, in the house of commons the other day.

Mr. Arthur asked whether a claim had been made for compensation for the death of Mr. Altes who was killed at Parry Sound fall fair by the explosion of a trench mortar supposed to be harmless. He was told that such a claim had been made and that the question of making provision for the family of Mr. Altes was under consideration.

# Allies to Execute Turkish Treaty By Military Force

San Remo.—The supreme council of the allies is fully prepared to execute the Turkish treaty by military force if necessary.

The council has accepted a plan drawn up for the employment of the allied armies by Marshal Foch, Field Marshal Sir Henry Wilson, British chief of staff, and General Biddolph, Italian chief of staff, who were present.

Two hundred thousand allied troops now are within the borders of the Turkish Empire, strategically disposed and these forces can be increased, if Turkish resistance is developed to any extent, numbers in Greece will probably supply the largest number of troops.

Supplementary naval plans were also announced by the council with Baron Beatty, commander of the British

## Bridges Damaged

Owing to Floods

Coal Stores in Calgary Are Running Pretty Low

Calgary.—From information secured from some of the coal operators in the Drumheller valley served by the Canadian Northern Railway, it will be a month before the bridges can be repaired sufficiently for the movement of traffic. It is stated that there are sixty-five bridges in a distance of twenty miles, and that fifteen of them are in a damaged condition owing to the floods. In some cases the bridges are submerged to a depth of more than four feet of water. Coal stores in Calgary are running pretty low, as the bulk of the coal used here comes from Drumheller. The principal supplies are now coming from the Edmonton district.

## Indemnities for Canada

Canada's Claim Against Germany Is Now Being Computed

Ottawa.—The amount of Canada's indemnity from Germany is now being computed by the department of the treasury created under the peace treaty, for considering such things.

Hon. N. W. Rowell, in answering a series of questions by Thomas Hay at the house, stated that the treaty of peace limits and defines the classes of claims which may be presented by the allied and associated powers against Germany. In so far as Canada has expended money or incurred obligations covered by the treaty, she has a claim.

The government is taking the necessary steps to see that the claims are properly presented. He stated that it is not true that Australia and British colonies have all received additional territory by way of indemnity. Australia, New Zealand and South Africa will be named as mandatorias territories. The League of Nations in respect to certain territories which Germany has been requested to surrender.

## Letter on Abandoned Ship

Message Found on Board Bids Good-bye to Everyone For Evermore

Prince Rupert.—The boat, McDuff, which ran ashore at Alford Bay, was being made public, and was being being sailed by an Indian. A letter was found addressed to Mrs. Anne Brown, of 17 Rogers street, Gimshy, England, saying:

"Engine broken, rudder smashed, drifting to Heavate Straits, storm. Bidding adieu to everyone for evermore."

## London May Sell Warships

Britain—Walter Home Long, first lord of the admiralty, replying to a question in the house of commons today, said the government contemplated selling some warships to foreign countries. Pending the outcome of negotiations, however, he added, particulars could not be divulged.

## Japanese Losses in Siberian Battle

London.—The Japanese casualties the fighting in Siberia which resulted in their capture of Nikolai and Chokharavsk in the Russians totalled 2,000, according to reports received in official quarters here.

Some of the Russian detachments escaped to the hills but others were captured and dismissed, the advice came.

Ralph Connor gets appointment Winnipeg.—Dr. C. W. Gordon (Ralph Connor), clergyman and novelist, will be appointed chairman of the industrial committee to be set up by the provincial government under the Industrial Commission act, according to an official statement made at the parliament buildings by the Hon. J. W. Armstrong, provincial secretary. The decision was compiled at a formal interview between Mr. Gordon and the provincial secretary.

## Royal Train Held Up By Armed Men

Bandits Attacked Queen Victoria and Her Brother

Seville, Spain.—Bandits attacked a train on which Queen Victoria and her brother, the Marquis of Cambridge were travelling from Madrid to Seville. The robbers made an unsuccessful attempt to carry off the royal couple, the queen was talking with her. The robbers, who were well armed, opened a regular fusillade when discovered, wounding two of the railway men, one of them probably mortally. The bandits escaped in a two-horse carriage, leaving no clue to their identity.

## Canadian Missionary Killed

Dr. Menzies of Toronto, Slain While Defending Women in China

Vancouver.—A serious situation has been created in Honan, China, as a result of the murder by bandits of Dr. James Menzies, M.D., C.M., and Chao Tih, the military governor, has been severely censured by the Peking authorities for his inability to protect foreigners and property. This information has just been received by the World.

Dr. Menzies came from Toronto, where his wife is now residing, and for more than 20 years was a missionary in China. He expired defending some women missionaries against robbers.

## Germans Would Increase Army

Want to be Allowed to Retain All Officers and Sergeants

Paris.—Germany has asked the inter-allied conference at San Remo to increase from 100,000 to 200,000 men the standing army provided for Germany by the terms of the Treaty of Versailles.

The request was contained in a note handed to the French foreign minister last evening with the demand that it be sent to the supreme council at San Remo.

The note set forth that an increased force was necessary for the maintenance of order in the interior and that, furthermore, the army would not accept an order for its dissolution.

The note further requests that Germany be allowed to retain the regular general staff and corps of officers, which means the entire framework of the active army.

Two other notes were handed to the foreign office at the same time. One dealt with the disbandment of the civic guards, which had already been made public, and the other contained a request that the reichswehr in the neutral zone should be reduced according to the number of units, and that Germany be allowed to have 11 batteries of artillery instead of two in the neutral zone.

## Universal Shortage

Dr. Robertson Tells Committee Of Abnormal World Demand

Ottawa.—In an address before the parliamentary committee on agriculture and colonization, Dr. J. W. Robertson, said it would take at least two big crops to catch up to anything like normal supplies of breadstuffs.

Dr. Robertson went at length into his experience overseas, reiterating his statements that prices were dependent entirely upon world conditions. Increased production in Canada would not lower prices because of continued abnormal demand.

Japanese Losses in Siberian Battle London.—The Japanese casualties the fighting in Siberia which resulted in their capture of Nikolai and Chokharavsk in the Russians totalled 2,000, according to reports received in official quarters here.

## British Labor Party Depart for Russia

Decline Responsibility for Newspaper Correspondents Who Intend To Go

London.—The delegation of the British Labor Party which will go to Russia to investigate the general situation there will be composed of Messrs. Philip Snowden, Ben Turner, Robert Williams and Tom Shaw. Mr. Williams, who is regarded as the most radical member of the delegation, has long advocated direct action. He was a leading figure in the activities of the triple alliance—the railway men, miners and transport workers—during the railway strike and the recent threatened miners' walkout, when the most vital factor was whether Williams, as head of the transport workers, would bring them into the controversy.

The laborites decline to assume responsibility for the accompanying newspaper correspondents, but it is stated that representatives of some of the London papers are planning to start and take chances of being stopped from entering Russia.

## Amundsen in Siberia

Last Reported in August When Ship Was Drifting

Nome, Alaska.—A wireless flash from Anadir, Siberia, announces the presence of Roald Amundsen, the explorer, the details and manner of his arrival are not given. A message from Anadir suggests that he may have reached that point with a vessel.

Last August Roald Amundsen was reported to be drifting in his ice-locked schooner, Maud, somewhere west of western Siberia. Nothing has been heard from him since directly since September 1, 1918, when his schooner was reported to be taking oil for her motors at Disko Is.

From the White Sea Amundsen expected to drift east with the ice to the new Siberian Islands which lie in the Arctic off Siberia. At the Siberian Islands it was believed the drift would carry him toward, if not beyond, the pole. The explorer is reported to have carried two airplanes as part of his equipment. He expected to use them if he found the drift would not carry him across the "top of the earth."

## Mobilize Teams for Seedling

Alberta May Adopt Suggestion Of Sending City Horses to Help

On Farm.—Calgary.—Mobilization of all available teams from the cities of the province to assist in reeding operations is being planned by the U.E.O.F. in co-operation with the southern boards of trade. The mayor and commissioners are being urged to support the proposal of the idea. It is estimated that seedling could be assisted to the extent of 2,000 acres a day in southern Alberta. The 2,000 teams could be secured from Calgary, Lethbridge and Medicine Hat.

## Strikers' Meeting Is Broken Up

Gathering Broke Up in Uproar After Leaders Had Been Hauled

Chicago.—John Grunau, leader of the outlaw Chicago yardmen's association, who was released from jail at John Dill, after friends had deposited \$50,000, was expected to call a new meeting of striking switchmen to end the walkout, following the tumultuous session of the U.E.O.F. called by a committee of strike leaders to vote on returning to work.

Declaring they had been "sold out" and lowering down streets of strike leaders to appeal to them to end the walkout, several thousand strikers followed the speaker to the meeting, which was announced Monday, who was to have presided, was still in jail.

The gathering broke in an uproar, Tumult reigned inside and outside the hall for half an hour, but there was no violence and no arrests were made. When the speaker, R. S. McNeil, and M. J. Kenney, who called the meeting, urged the strikers to return to work and await action of the railroad labor board on their demands for increased pay.

"I hope that you can see that this is not a good thing," Mr. Kenney told the strikers. "You can fight the railroad, but the United States and you are foot to foot to try."

On the rostrum was an American flag. Jones touched it constantly as he spoke. As Murphy began to speak, he was greeted with a shout of "Where's Grunk? We want Grunk!"

# Promise to Finish Hudson Bay Road Soon as Possible

U.S. And Britain Would Trade With Russia

Sir Auckland Geddes Declares Progress Is Being Made Cordially

Washington.—Negotiations between the State department and the British foreign office, concerning the proposed development of trade relations with Soviet Russia are proceeding and progress is being made cordially. Sir Auckland Geddes, the British ambassador, made this announcement. The question of the recognition of the present government of Russia is entirely apart from these conferences, it was said.

It is the purpose of Britain and America to arrive at an agreement as to means of expanding the trade already being carried on with Russia through Scandinavian countries and by way of Finland and Latvia. While the plan will be adopted has not assumed shape it is regarded as probable that the old trade relations will be almost entirely or so liberalized as to leave but little restraint on the channels of trade.

It is fully understood in London and Washington that in furtherance of the determination to force political decisions to the hands of the western European nations and America, the soviet government will do everything possible to hamper such trade development through independent lines. The negotiators are believed to feel that, while Lenin will scarcely be prepared to reduce the demand for his fellow people for the essentials of life which are held out to them in this way.

## Deporting Sinn Feiners

Fifteen Removed From Belfast and A Large Number From Queenstown

Belfast.—The removal of fifteen Sinn Fein prisoners from Belfast and a large number from Queenstown to five destroyers leads to the belief that the authorities are planning taking all Sinn Fein prisoners from Ireland.

The house of a merchant named Stewart was destroyed by fire in County Down. In Limerick, the Theatre Royal was attacked by a mob and a dozen armed men rushed the officers and held up the manager, abstracting the receipts of the day.

## Great Britain Help Argentine

Buenos Ayres.—La Razon, commenting on the fact that the British government is leasing Argentina \$50,000,000 to pay off a loan of the same amount by New York bankers, after the late war, and is refusing to renew the loan, says that the Argentine government is in a position to turn again to England, "the traditional indulgence of our country."

# Will Take Some Definite Action On Natural Resources

Ottawa.—Indications here point to the firm belief among western members of parliament that the government is about to take some definite action along the line of natural resources before the close of the present session.

Headed by those who have been pressing for such action, a delegation of some forty-five supporters of the government, waited on the government cabinet members present included Sir George Foster, acting premier; Hon. Arthur Meighen, H. A. Dwyer and C. C. Bellantyne. It was stated that the government would immediately consider undertaking some policy whereby the mineral development of the country would be attended and whereby all the operations already made in the house will be implemented by effective action on the ground that this would be one of the possible methods of increasing the population, less the taxes, enhance the property, secure a market for agricultural products, provide employment where it is badly needed, furnish the for the already overdeveloped

Ottawa.—Assurance that the completed portion of the Hudson Bay railway would be put in good repair this year and that the government would carefully consider the early completion of the road, was given by Sir George Foster to the special delegation of members of parliament, senators and representatives of western boards of trade, which waited upon the government to present the case for the completion of the road. Members of the delegation expressed satisfaction with the result of their interview and their confidence that the completion of the road would not be neglected.

Sir George Foster left the impression that in addition to the repair work promised, some additional track would be laid this year, possibly as far as Limestone River. The government had never intended to abandon work on the road, he said. Most of economy had compelled the government to suspend construction in 1918, and the government proposes to finish the road as soon as possible. He promised to consult with the minister of railways regarding early completion of the road.

Dr. R. M. Blake, M.P., for North Winnipeg, chairman of a special caucus of members of parliament, introduced the delegations and urged that the government could practice economy at the expense of the other public works rather than the Hudson Bay Railway.

J. A. Campbell, M.P., for the Prairies, urged that the resources of the territory and the Bay district would more than pay for the work, apart from the value of the water route to the Atlantic and the Pacific. The Hudson Bay railway would mean as much to the middle-west as the Inland route had to the maritime provinces and the Canadian Pacific to the British Columbia development.

Hon. Edward Brown, representing the Manitoba Legislative body, of the resources of the north country, and mentioned the fact that the Manitoba government was planning to build a road from the Hudson Bay railway to the Copper country of the north, a distance of only 80 miles. He urged that the government should place in the work already done, and that represented the major part of the expenditure involved in the construction of the road.

Great Britain Help Argentine Buenos Ayres.—La Razon, commenting on the fact that the British government is leasing Argentina \$50,000,000 to pay off a loan of the same amount by New York bankers, after the late war, and is refusing to renew the loan, says that the Argentine government is in a position to turn again to England, "the traditional indulgence of our country."

Ottawa.—Indications here point to the firm belief among western members of parliament that the government is about to take some definite action along the line of natural resources before the close of the present session.

Headed by those who have been pressing for such action, a delegation of some forty-five supporters of the government, waited on the government cabinet members present included Sir George Foster, acting premier; Hon. Arthur Meighen, H. A. Dwyer and C. C. Bellantyne. It was stated that the government would immediately consider undertaking some policy whereby the mineral development of the country would be attended and whereby all the operations already made in the house will be implemented by effective action on the ground that this would be one of the possible methods of increasing the population, less the taxes, enhance the property, secure a market for agricultural products, provide employment where it is badly needed, furnish the for the already overdeveloped

It is the intention of the government to transfer to Alberta, Saskatchewan and Manitoba, their natural resources as soon as terms fair and equitable to all other provinces of the Dominion can be arranged. This intention was given by Sir A. Campbell, of Nelson, in the house of commons. Mr. Campbell was told that it had been the policy of the government to make this transfer even since its formation. Parliamentary action was necessary to effect this transfer.
